Trung Diec

Full Stack Software Developer

Boston, MA | 781-888-6337 | Tdiec00@gmail.com | https://www.trungdiec.com| https://github.com/tdiec00 |
www.linkedin.com/in/trungdiec

I am a self-motivated and career oriented full stack software engineer. My persistence is second to none. I develop cohesive teamwork environments, and provide extraordinary communications skills. Providing a willingness to educate and learn from others, I am a great asset to any team.

SKILLS

- **Programming Languages:** HTML, CSS 3, JavaScript, Ruby, Python
- **Libraries & Frameworks:** Bootstrap, Node, React, Express, Ruby on Rails, Tailwind CSS
- **Additional Skills:** Github, Responsive Design, Wireframes, React Styled-Components

RELEVANT EXPERIENCE

Software Engineering Immersive | General Assembly | Remote | November 2021–March 2022

- [What's the Price](), [Github Repo](): A full CRUD React frontend application that allows users to create a shopping cart, add and remove products, and checkout products. The backend is a Ruby on Rails application with a PostgreSQL database.

- [Athletic Performance Index](), [Github Repo](): A React application containing a list of exercises broken down by body part. Allows users to search through exercises with descriptions and gives the ability to add exercises to the database.

- [Couch Working](), [Github Frontend Repo](),[Github Backend Repo]() : A MERN stack AirBNB like application where users can post and sign up for shared work spaces.

- [Brew Master](), [Github Repo](): This React and Javascript based application allows users to sift through lists of various beers, including ingredients and brewing instructions.

Senior Inventory Specialist | Boston Medical Center | Randolph, Ma | April 2017–November 2021

- As the lone inventory specialist, launched and scaled a $100m inventory pipeline resulting in a swift promotion to Senior Specialist.
- Utilized self built excel spreadsheets/databases to track vendor specific information. These tools were utilized to track dynamic data and use cases.
- Trained, mentored, and developed 3 onboarding pharmacy inventory specialists as the organization expanded.
- Created workflows that optimized our limited staffing and space constraints.
- Focal point of communication between different departments.

Senior Supply Chain Specialist | Massachusetts General Hospital | Boston, Ma | April 2012–April 2017

- Promoted twice within a 2 year span. Bypassed the required 3 year period for the second promotion.
- Created and utilized training documentation for onboarding pharmacy technicians.
- Utilized 2 coinciding pharmacy systems (WorkflowRx and Epic) to manage the multi-million dollar inventory for one of the largest hospitals in the United States.
- Worked as a cohesive team member of over 200+ technicians, 70+ pharmacists, including over 15+ pharmacy departments
